Subject: electoral reform bill: submission from a private citizen
Date: Thursday, 16 January 2014 7:35:19 AM

I am disturbed to hear of reports that in this bill the Queensland attorney-general is pushing for a toughening of the requirements for citizens seeking to cast their vote. Given the past performance of Mr Bleijie in matters of social justice and basic constitutional freedoms, I have grave concerns that should this bill become law a great many citizens might find their rights unfairly reduced. I therefore strongly oppose the bill.
