Subject: submission to make it harder to vote
Date: Thursday, 16 January 2014 9:15:53 AM

Dear Committee,
I strongly object to the latest submission by Qld. Attorney-General Jarrod Bleijie which I feel will affect our democratic voting system in many negative ways. Tougher ID requirements will go against certain members of our society and make it harder for them to vote and lets face it, such a small percentage of people say who they are not, what's all the fuss about?
Also, these new laws will make voting day a nightmare time wise unless you intend to employ many more people to check ID's and this will be costing us taxpayers many more wasted \$'s.
I urge you to reconsider,
yours sincerely,
Jessica Ainsworth.
