Enough is Enough do not change or allow any change to Electoral laws that will allow for any further discrimination against

Indigenous people (the first people of this great country).

Elderly People, (our parents who are and all ways valued and respected members of our state and nation).

Young people (who are our future and if you try to silence them you will be losing the direction of our Future)

People living with a disability as they have more value than you can imagine and (not a liability as some people may consider but great contributors to our future as people learn compassion from them and understand that)

It could be anyone of you on this Committee or any one of us due to an illness, accident, fighting a war, or aiding the broader community fire, police work, ambulance officer for the nation, or from birth)
