There are many great differences between Australia and the ever encroaching  
communistic police state that is increasingly engulfing the US.  
Let us all keep it that way.  
There is an old saying about putting wisdom in young heads.  
Now is the time for the more learned, quiet minds to set the model.  
Not these raging young princelings whose utopian dream appears to be nothing  
more than their own rise as Emperor.
