In a fair and open democracy, which is the only true democracy people must be free to vote and have no impediment or barrier placed in the way of their Democratic Rights, Rights my father killed for.

The proposed laws would clearly and directly inhibit that right and has no part to play in a free and democratic Australia.

There is little to no evidence that voter impersonation has ever made a difference in any election. This can only be seen as a sordid attempt to disenfranchise the more mobile sections of our community including many in the Mining Industry, an itinerant industry if there ever was one.

I ask you to rethink this threat to our great state.

Robert maxwell
