The Queensland Government is following dogma as outlined to them by American Corporate Interests. There is no secret about this and also there is no valid reason for alterations to the voting rights of Australians. The system as is has worked well for over 100 years and there is no reason for the it to be changed.

In a free and fair democracy as many people must be free to vote as possible. Governments have a responsibility to make it easy for people to vote. Can the committee guarantee that these laws won't lead to voter disenfranchisement?.
