---

to whom this matter concerns my name is James Mc Gurk i am 65 years of age i am basically computer illerate and up to this stage in my life have desired to communicate in the written form so please excuse lack of spelling and punctuation i have for a long time now been aware of the fact that QLD is the only state that did not have a bill of rights but naively believed the reasons by the powers to be that the people did`nt need a bill of rights as the courts were there as a failsafe to ensure the people`s percieved rights were adhered to and protected by all parties empowered and entrusted to do so i have come to the conclusion over the last five years that this assumption is so far from the truth and in reality a totally inefective method in regards to time and cost effect totally unafordable or practical for the people in general so i suppose it has come to this as a free citizen i am submitting this letter demanding this inequality with the other states of the australian federation be addressed and corrected the times are changing and unless the major political parties take action to adress an rectify this neglect of democratic principle a future coalition of independents mp would be willing to govern on and in the best intrests all the people i have not stated personal grivences because if the people had an agreed to bill of rights enshrined then i would not be in this situation yours respectfully J.P.Mc Gurk
