Q5: Do you think that human rights are properly protected in Queensland? Why/why not?

No, because of the way i have been treated within the employment & health areas due to my sex.

Q6: Do you support the introduction of a Human Rights Act in Queensland? Why/why not?

Yes, women & children have been silenced and mistreated for way to long.

Q7: Can you think of a situation from your life or someone else's life that shows why Queensland needs a Human Rights Act?

They way in which i was & still treated from the time i said i was a victim of domestic & family violence. The stigma alone is enough to prevent you from ever trusting people or the system ever again. Thats way i started my own service to reassure victims someone truly understands and cares enough to invest their own monies to establish a service to take the frustration out of where to go in a time of crisis. www.1800mummys.com
