Q5: Do you think that human rights are properly protected in Queensland? Why/why not?

No. The reactive and populist discourse of recent decades has led to a decay in our human rights, especially in areas of privacy and protection from discrimination.

Q6: Do you support the introduction of a Human Rights Act in Queensland? Why/why not?

Yes. If anything to redirect the conversation back to protecting the Human Rights of a free nation we fought for and have been gradually eroded over the last 20 years

Q7: Can you think of a situation from your life or someone else's life that shows why Queensland needs a Human Rights Act?

Yes, the many times I am asked for personal details by organisations & authorities that go beyond their need for those details. Insurance companies is a particular example that comes to mind.

I even hesitated in completing this survey when I saw the personal details requested at the start due to the uncertainty at how they will be shared or used.
