Q5: Do you think that human rights are properly protected in Queensland? Why/why not?

i think that protection of human rights is vital, especially for the weaker & more vulnerable & poor. i think Qld has good human rights however the public health & education systems could be better funded. Environmental issues also need looking at as these impact family/civil welfare.

Q6: Do you support the introduction of a Human Rights Act in Queensland? Why/why not?

yes, & these Act should be fair & equal for all, most importantly for everyday families. happy families are key to successful & civil societies and based on good christian principles.

Q7: Can you think of a situation from your life or someone else's life that shows why Queensland needs a Human Rights Act?

yes. without going into details, hospitals should provide the initial medicine that there doctors prescribe, as ppl on centrelink payments often dont have money to get these until their next payday, & a cap should be placed on the PBS system so that this doesnt get raised by politicians or health system workers that have no idea what its like to live on centrelink payments.
