**Q5: Do you think that human rights are properly protected in Queensland? Why/why not?**

No.  
Laws can be made without consideration of the human rights impact and without reference to baseline human rights such as the UN Conventions.

**Q6: Do you support the introduction of a Human Rights Act in Queensland? Why/why not?**

I support the introduction of a human rights act. This will help make government and corporate actors think carefully about the human rights implications of their actions and provide possible recourse when human rights have been abused.

**Q7: Can you think of a situation from your life or someone else's life that shows why Queensland needs a Human Rights Act?**

Indigenous children are 24 times more likely to be held in detention in Queensland than non-indigenous children - Queensland does not comply with the UN Charter on the rights of the child such as the age of criminal responsibility being 10 yrs rather than 12 yrs and 17 year olds being incarcerated in adult prisons. A human rights act would force legislators to assess these laws against a best practice human rights for children.
