**Q5: Do you think that human rights are properly protected in Queensland? Why/why not?**

No. There is no protection against corporate abuse of market power. There is virtually no protection of whistleblowers.

**Q6: Do you support the introduction of a Human Rights Act in Queensland? Why/why not?**

Yes. The rights of individuals are continually eroded by the growing power of big money. The democratic process is being perverted by the power of campaign donations. The powers of government are being repressed by international "trade" agreements.

**Q7: Can you think of a situation from your life or someone else's life that shows why Queensland needs a Human Rights Act?**

The proliferation of one sided service contracts from powerful corporations ( e.g. phone companies). The disproportionately low rates paid to home power generators for solar inputs to the grid. The banning of car sales via public places (citizen to citizen trade). Much much more.
