Q5: Do you think that human rights are properly protected in Queensland? Why/why not?

No. Disabled people and the mentally ill need a lot more protections. LGBTI people need a proper framework of laws to protect their rights and safety. And Indigenous people need all the help they can get asserting their rights.

Q6: Do you support the introduction of a Human Rights Act in Queensland? Why/why not?

Yes, absolutely. We might like to think everyone will act decently, but when our Federal government thinks it's ok to lock up innocent refugees as some bizarre collective punishment to deter other desperate people - clearly not every has the same idea of what constitutes decency.

Q7: Can you think of a situation from your life or someone else's life that shows why Queensland needs a Human Rights Act?

i have seen homosexual friends bullied and discriminated against in the workplace - and right now they seem to feel they have no one on their side at all.
