**Q5: Do you think that human rights are properly protected in Queensland? Why/why not?**

No, it is not protected as my wife has been given the blow of Injustice over and over both here and in Victoria as the matter that began in 1994 has not even made it to Court for finalization because of a combination of the Defence been given ample opportunities to postpone and or to avoid confrontation when a Judge willing to hear the case and be equal in Judgement been avoid it be both the Defence and by her own Lawyer.

**Q6: Do you support the introduction of a Human Rights Act in Queensland? Why/why not?**

As a Citizen of this Earth I have conscious duty and the right to demand that the Laws and Justice should be equal not just in Queensland but on the entire planet as there is only Justice only for those who has deep pockets but not for the victims and they have not. It is also the duty of all the Earth Citizens to ask and demand that the Justice System to become equally Just and affordable and accessible for all and not for only 15% of our earth population.

I am prepared to be part of these changes which has to be in place so we will not pass as an Inheritance this Unjust Legal System to our future Generations which protects only a very small part of our population around our Country or around the entire Planet. If all the Citizens of this Earth are serious enough we could enforce these changes and keep them there for eternity but it can be done only if all are united as one! I hope and wish that all this will become a reality as too many victims has been hurt and it will continue with any of us if we are not prepared to see that they do change and stay there !!!

**Q7: Can you think of a situation from your life or someone else's life that shows why Queensland needs a Human Rights Act?**

I have been told years ago that even a paraplegic suffered Injustice.
