**Q5: Do you think that human rights are properly protected in Queensland? Why/why not?**

No. People aren't protected enough against government powers. In Europe they are.

**Q6: Do you support the introduction of a Human Rights Act in Queensland? Why/why not?**

Yes!!! Human rights are important to protect people against unfair government practices.

**Q7: Can you think of a situation from your life or someone else's life that shows why Queensland needs a Human Rights Act?**

1. Water: water should be a human right, without that human mankind and animals cannot exist. Europe as signed that already but not Australia. It makes it impossible for government(s) to sell water for profit, which would lead into lower water prices for consumers.

2. Privacy: The European High Court decided shortly that privacy is a human right. Data retention violates that massively because people are spied on without a reason (guilty until innocent). Police would also be unable to maintain photos from cameras. No one needs to know where I was and where I went. Police would have to delete photographic evidence immediately if people are innocent. That also includes face recognition in police cars etc. It's a violation of privacy to take photos from drivers which haven't agreed to store their photos.

3. Whistle blowing: needed to uncover dirty tricks in governments or institutions/companies.

4. A victim of a crime should get legal aid and not only these who committed a crime.

All these things are for protecting people against an out control government and the greediness of police and intelligence's to spy on innocent people.

## PAGE 3
