Q5: Do you think that human rights are properly protected in Queensland? Why/why not?

No. Because we are at the mercy of the particular government in power. The previous State Liberal government was a prime example, where we were bordering on being a fascist State through their implementation of draconian policing.

Q6: Do you support the introduction of a Human Rights Act in Queensland? Why/why not?

Yes. Legislating Human Rights will demonstrate the government's commitment to better treatment of ALL Queenslanders, particularly Indigenous Australians; and protecting our most vulnerable citizens. Providing a framework for Human Rights will also impact on existing and future legislation; and with the right to marry - one assumes this also covers same sex marriage.

Q7: Can you think of a situation from your life or someone else's life that shows why Queensland needs a Human Rights Act?

Gay friends who have been partners for half their lives, but cannot legally marry.
