Q5: Do you think that human rights are properly protected in Queensland? Why/why not?

No , they are not . Corporate legislation turned into law delivers great injustices . Many human right are violated and there is nowhere to turn to , no accountability !

Q6: Do you support the introduction of a Human Rights Act in Queensland? Why/why not?

I support common sense , not political correctness . Natural law ,common law needs to rule ,not corporate legislation to benefit corporations . under todays corporate law implemented via doublespeak / new-speak terrible crimes are legal (although unlawful under constitutional (common) law . Meanwhile victim-less crimes are filling our courts and prisons !

Q7: Can you think of a situation from your life or someone else's life that shows why Queensland needs a Human Rights Act?

Yes , we should all have the right to be protected from intentional harm by others . I myself have suffered extreme pain (torture) repeatedly by neighbors and councils poisoning me with chemicals . This exposure is life threatening to me , has given me cancer , tortures me severely and constantly reopens the old wounds of severe PTSD . Nobody is ever held accountable and I cannot get any help of any kind ! Instead I've been gagged , threatened and bullied . No human rights here ! No justice , no compensation for this kind of injustice and repeated attempted murder via legislation !!
