Q5: Do you think that human rights are properly protected in Queensland? Why/why not?

No. People don't have the right to defend themselves, don't have the right to use firearms they have been trained in and have been certified through a government approved safety course to defend their home.

Q6: Do you support the introduction of a Human Rights Act in Queensland? Why/why not?

Yes. Specific Human Rights/Bill of Rights is more required than ever. As the legal system gets more dense with laws, it is difficult to guarantee individual rights.

Q7: Can you think of a situation from your life or someone else's life that shows why Queensland needs a Human Rights Act?

People who have been charged with murder for using their firearm to stop a criminal who has entered their house to steal, rape, murder etc. It should be an unremovable right - a person has a right to defend themselves in their home and in public. Remove the childish demonisation of firearms, institute concealed and/or open carry firearms licenses, proper training for everyone etc. This will lead to much greater individual liberty, a more stable and safe society and a greater GDP through encouraging weapons/ammunition manufacturing in Australia, rather than just importing everything from America.
