Acting Secretary
Queensland Parliament

Re: Have your say on the Belcarra Bill

Firstly, I would suggest that every aspiring Councillor should be checked to see if they have a criminal history. Also, CEO's should be checked, and eliminated out of the running, if they have criminal histories.

It should also be an offence to provide a different name to what they have been charged/convicted under.

We need people who genuinely care about the lives of people that they represent – not mongrel-cunning individuals who just want to be on the gravy train; and be part of a group who are destroying people's lives, filling their pockets with developers' and big business people's money.

I have a property at Swanbank, in the Ipswich City Council (ICC) area, and have been having problems with the dump next door, (originated by Thiess, and then owned by Leightons, and currently owned by another company), inundating my property with backed-up water.

Also, I have had Leightons (developer) bring in a lot of fill on another side of my property, and they have dug trenches within this fill, directing the rainwater runoff in the direction of my property, causing my good dam (which my livestock depend on), to be almost 50% filled with their sand and silt.

Also, I have another complaint of Wingate, a developer, making plans for the Swanbank area, in about 2004. These developers, with the help of the Ipswich City Council, have looked after themselves by zoning their land 'industrial' etc., and making my land a 'buffer zone'. I checked ex-mayor Pisasale's donations in the 2004-2008 period and found that he has received donations from Thiess and Leightons, who have been previous owners of the dump. Wingate (developers) donated to ex-Mayor Pisasale during 2004-2008 period, as well.

I have more complaints regarding future roads being planned across my property, and a water retention basin being planned on my property, without my permission. I am in the process of compiling formal reports about these complaints.

I am happy to be contacted for further information/clarification regarding the above points.

Yours sincerely

Jim Curley
