

Re: Country hotel license fees

Dear sir or madam, I would love to see this bill implemented to reduce licence fees. It's a big slug that comes with the warning of license suspension or cancellation. With rising power prices, phone charges, etc, it certainly would help to take a load off the weekly running costs we face with smaller customer bases to draw from. Another area that would help immensely, would be to alter the gaming taxes to specific regions. As you know, there are 3 regions in Qld.

I greatly support the idea of the reduction in license fees. With rising power costs etc it keeps the load on your business cash flow. Another area that needs to be reviewed is the gaming taxes. We have 3 different regions here in Qld & 3 different pricing structures for the authorities & only one tax rate. It would be fairer to either have all the same authority prices & same taxes like we have now or reduce the gaming taxes for the western region etc.

Kind regards Kev Fawcett. Winton hotel
