[REDACTED]

I have just read through the HUMAN RIGHTS BILL 2018

I agree every person has the rights that are stated

It says every human person has the right to life ... not to be tortured etc

Totally agree!

So why has the Queensland parliament just passed a law where a doctor can induce a baby  
the day before birth, [REDACTED]  
[REDACTED]

This is torture to a baby

Has the human baby got no right to life

This new proposed bill says it has

Respectfully

Christine Hodgkinson

Ps I wrote a submission on the previous bill dealing with the above legalising the killing of  
the unborn child, and I received no acknowledgement of receipt.

I expect to receive one for this submission, as then I know it has been received.

Thank you. C H
