

SUBMISSION RE HUMAN RIGHTS BILL 2018

By DR Timothy Coyle MBBS,

E. 

There are 3 issues in this proposed bill that concern me as follows:

- 1. - A right to freedom of conscience - Section 20 states:
Every person has the right to freedom of conscience. (The
Termination of Pregnancy Bill compels doctors with a
conscientious objection to abortion to refer for abortion
anyhow - therefore removing their freedom of conscience)
As a practising GP I feel that my freedom of conscience and
my freedom to practice good medicine by caring for both
mother and child by referring a mother seeking abortion to**

independent professional counselling, bearing in mind that 98% of abortions are sought for social reasons, has been removed by the fascist Termination of Pregnancy Bill 2018, the Qld State sanctioned human killing Bill, and therefore I look forward to the restoration of my freedom of conscience by this human rights bill.

2.

The right to life – Section 16 states: Every person has the right to life and has the right not to be arbitrarily deprived of life. (The Termination of Pregnancy Bill effectively legalises abortion to birth in our state - entirely removing the right to life for unborn human beings).

Thank you for inserting this section, thank you for recognising this inherent right of all humans.

Again I look forward to the Qld courts recognising this right and finally applying some regulation to the human killers in our community, those killing humans at both the early and final stages of their lives.

3. A right to public assembly – Section 22 states: Every person has the right of peaceful assembly. (The Termination of Pregnancy Bill imposes a 150 metre exclusion zone around abortion clinics)

Again thank you for inserting this section.

I look forward to peaceful assemblies outside Parliament and indeed by places where I can peacefully counsel those mothers seeking abortion, the fact that many change their minds at this stage means they had never been properly counselled in the first place and are the victims of feminist terrorism, an ideology that has removed sensible considerations for mothers seeking abortion such as mandatory independent pre and post abortion counselling, and denies the links between abortion and medical morbidities.

Signed:

24.11.18.
