Subject: Human Rights Bill 2018
Date: [REDACTED]

Dear Chair and Committee Members,

This is a submission to your inquiry into the Human Rights Bill 2018.

This Bill would be a significant benefit to all Queenslanders, particularly our most vulnerable, and is strongly supported.

It recognises inherent rights Queenslanders deserve and expect to have protected, and will help to improve the ability of Queenslanders to access justice.

One key addition needed in the Bill is a right to a healthy environment.

Without a clean, healthy environment, the basic human rights to life, health, work and education all cannot be fully realised.

Please recommend to the government that the Bill be amended to include a right to a healthy environment, for all of us.
