I Steve Spencer think that stopping All Club members from wherein There club names on there back is ridicules, that's not going to stop any crime as a lot just drive in cars , you have heard of Nike Bikies ? and there is a difference between the Nike type clubs and old school clubs , the old school clubs Ride Bikes and Ride Bikes together, they are not Angles but most work and earn a living and most are just battles getting by , so by stopping the old school clubs from Riding together is only going to make it hard for the old school clubs that Ride Motorcycles" not drive cars and course trouble and think being in a club is about fashion and making money, well its not its about mateship and Riding Bikes, so you see if you stop all clubs from wherein there club emblem your only hurting the old school clubs that Ride Motorcycles , it must work on merit or the carat and the stick , if a club is braking the Law then jump on them but if they are just Riding there Bikes come on that's not braking the law , it seems to me like all clubs are being used for political gain , so please have a good think about this new law and who its reality going to Effect and believe me it wont stop crime, with Respect Steve Spencer.
