The vlad laws are unjust and target the wrong people. The new laws you want to bring in are no better trying to tell people what clothes they can and cannot wear is ludicrous. While you are running around with your scare mongering tactics against bikies to the public the real criminals are having a field day. In chasing the bikies you have really taken your eye of the ball when it comes to the people that are committing all the crime. Time to wake up and get serious and stop wrecking innocent people's lives with your ridiculous vendetta.
