**Subject:** [REDACTED] !New improved Bikie laws and further Restrictions on the Queensland motorcycle riding enthusiasts...etc.  
**Date:** Sunday, 2 October 2016 6:28:19 AM  
**Importance:** Low

---

You probably wont respond to this e-mail so I wont go into the Greatest of details.....

I as a former Mc member from another state decided to leave my then Club of 30 years Membership etc....

Because our Labour Government decided to Outlaw the Outlaw or 1% ers... I was not a member of an 1 % Club

Although I Queensland the Club I was a former Member of was declared on a list of Banned Motorcycle Clubs...!!

But because of my Friendships with other Members of other local and interstate Groups I was harassed along with whatever the

Police Of the day looking out for Public order etc. Well let me just say and I Quote...if I was involved hypothetically in a car accident ..?

And a small child or animal..etc was injured in the process and say one corner of the street was a Bikie pub and I had to leave the animal or child with Strangers ...and on the other corner of the street there was a pub where say Lawyers, public servant types, Parking attendants.....etc and Police.....I would rush to the Bikie pub, Because most of them would have heard the crash and would be jumping over eachother to help out.....so I would leave my child with the people of similar interests every time, because You University going to study for years to start a Career...

Are removing yourselves from mainstream working class types but I would trust someone I had never previously met before the crisis over you University Scholars...

And at my age now 56....still ride and transport, and also repair motorcycles, think that a lot of the White Collar types start out with good Moral Intentions sometimes cross over because People depend and Need you to do the righty.....once you start claiming an allowance here....

A helicopter ride there etc paints a lot of people in My eyes in a corrupt fashion,

Look ill just finish by saying that Banning the wearing of Motorcycle Club Insignias vests,,,,,,etc etc is So far removed of what I consider The Publics' fundamental right to look a certain way.

Just as its important that the law enforcers that enforce the Law wear their appropriate clothing.....I know not much of an argument,

I For one have friends in Queensland but Will not visit or contribute to your States Support. Get it Right and come up with a policy that will Make the Public perhaps take notice of your vision and follow you.....and of

course if people Break the law {whoever they may be...} use the laws that are with us and carry it on and punish the Lawbreakers.....

Do whats Right and remember just one thing more: Pollies, Police, Magistrates,Councils are PUBLIC SERVANTS !!!!!

Yours Faithfully

I can be contacted for further comment
