I think some of the new changes are in the right direction when it comes to crimes against children. However, the section that deals with the wearing of colours is ridiculous and wrong. We have the right to wear what clothing or apparel we want. It's part of being a free society. And if that should change we as a state or nation is heading down a dark path. Plus it's easy to see who is who when the clubs etc are wearing colours. To stop that would be a disadvantage to all.

Thank you for listening

Chris
