

## Monitoring of Places of Detention (Optional Protocol to the Convention Against Torture) Bill 2022

**Submission No:** 5  
**Submitted by:** Anthony Shaw  
**Publication:** Making the submission and your name public

### Submitter Comments:

Allowing the United Nations subcommittee the tools they need to make reports and enquires would be very helpful for identifying potential aspects of our detention system that may be in need of reform. Allowing these visits by the subcommittee on prevention of torture is important as it will give present and future governments confidential, objective and impartial information that they may use to inform their detention policy. I do not wish to be called as a witness.
