Submitter Comments:

the Bill proposes to allow anyone to claim they are not the biological sex they are born as. this has direct impacts upon womens safe spaces ,change rooms and sports etc . If non binary or Transidentified people want to be what what they chose to be , that's OK but the carte Blanche license to usurp womens right to being safe should not be up for grabs. If Transidentified males don't feel safe going to mens spaces , rest rooms etc , why do they presume that WOMEN are ok with them invading womens spaces . the real question is WHY isn't this sort of energy being put into educating MALES to be more accepting and inclusive about males that wish to express themselves differently than the stereotyped 'normal' male .There is an enormous amount of cases of males purporting to be female that have committed awful crimes against Women in safe spaces .All I ask is that you consider all of the data , the trans crime data across the world and the historical data of how damn hard it was for Women to get these spaces in ghe first place. I'm sure you will be aware that there will be women and kids sacrificed as 'collateral' damage if this law passes. Women's rights to safety, security and their autonomy is not yours to give away.
