

## **Births, Deaths and Marriages Registration Bill 2022**

**Submission No:** 5  
**Submitted by:** Callan Woods  
**Publication:** Making the submission and your name public

### **Submitter Comments:**

I wish to express my support for the proposed changes to the Births, Deaths and Marriages Registration Bill. Having the ability to update my birth certificate to acutely reflect my identity without the requirement of surgery will make it possible for me as surgery is completely outside my affordability.
