Submitter Comments:

Women and girls are a different sex class to men. Women and girls suffer sex based discrimination and are vulnerable because of our sex. That is why we have sex segregated spaces such as prisons, toilets, changing rooms and prisons. Men who decide to relate as women are still men - more often than not they are fully intact men who pose a real danger to women and girls. Eg a high percentage of trans identified males in prison are sex offenders. It is unimaginably cruel and dangerous to women to place these men in women's prisons. I am also very concerned about the message this legislation might give the wider community and vulnerable children in particular. I don't believe anyone can change sex just because they want to. Young people are being medicalised for life and are being subjected to horrific surgeries and lifelong damage to their mental, sexual, and reproductive health after being sold this lie. Many now have regrets or are detransitioning. This is an ugly self serving industry at best and a deluded religion at worst. I don't want to see any more young girls sacrificed at its alter. Please protect the sex based rights of women and girls.
