To whom it may concern,

Re:

## BIRTHS, DEATHS AND MARRIAGES REGISTRATION BILL 2022

I strenuously object to what I have read about the new bill which will allow people to "Self ID" as their gender of choice despite their gender of birth or without investigation into what counselling, medications, hormones or surgery they may or have not had.

This will open up a whole can of worms we are not ready for and may put women in danger and at disadvantage.

So many concerns about use of women's facilities and safety.

I also would be concerned about a woman now identifying as a man using male facilities and their safety there.

I have friends in the LGBT community and friends with transgender children and teens. I do not believe our society is ready for this bill and careful consideration and alternatives to mainstream Male / Female facilities and classification will need to be set up before implementation of a Bill such as this.

Please note my objection to passing this bill.

Regards

Lynda Kelly
