To Whom it May Concern,

I am writing to protest the changes that will recognise men self ID into being 'a woman'. Sex is binary, there are men and women, male and female, and no one can change sex. Gender is another matter, this appears to be fluid and changeable according to how a person feels at any given time.

To allow men to self ID as women, you are removing womens rights to privacy, safety and dignity. Men are our greatest predators and in 2022, sixty six women were murdered by men. Women need safe places where they can retreat from men. Your proposed legislation allows men the right to not only call themselves women (a lie), but gives them the ability to invade womens private spaces, including rape crisis centers and womens prisons.

Why you are giving away women's rights because men have decided they can now be women if they choose, is beyond me.

My womanhood is not yours to give away.

It is not something you can now share with men.

Please do not go forward with this legislation.

It will literally remove our rights and hand them to men.

History will not look kindly on those that choose this ideology over women's rights that we fought so hard for.

Thank you
