Submitter Comments:

To Shannon Fentimen, I strongly oppose the bill on the grounds that a person will no longer be required to undergo sexual reassignment surgery to formally register a change of sex. This means that men who 'identify as women', can change their legal sex with little more than some paper and a few strokes of a pen. This legislation will effectively allow men to self-identify into female-only activities, spaces and services, including sports, prisons, bathrooms, and refuges. For thousands of years, society has accepted that biological differences are set in concrete and in the blink of an historical eye, you decide that society is prepared to accept this. We have numerous instances of transgender men inflicting sexual harm on girls and women. Where is your compassion for the victims of this crazy legislation? Gender is NOT a social construct and never will be. Now please cancel this bill.
