I am 55 year old woman.....this is the first time in my life that such damage is being done to the rights of women and girls.....it is unbelievable that we are at some place where men can enter women's spaces- as long as they say they feel like a woman.How can Qld not see the "issues" this has created in other countries?Why are we not listening to other countries who have tried this 'ideology" and found it to be dishonest and dangerous?How can we make a decision about anything when we rely on twisted opinions from deviates?Women and girls deserve so much more than to be treated like this.....Sincerely Janine Daniell
