Submitter Comments:

I whole-heartedly Oppose this bill. It should not even be consider as it is ludicrous. It Completely dismisses my rights as a female citizen of this State and this Country. It would, i fact, make women second class citizens. It is disgusting. Let it be know - I will Not allow a man to use the Womens' Toilets when I am using such a facility. I will also stand for other womens' rights to use a public toilet safely, Without Any man invading our private space! It is unbelievable that a grown woman with a, supposedly, sound mind, would even consider such a bill, let alone putting it up to the parliament. Un Believe Able! Insanity! The safety of women and children in this country is hard fought for, we deserve safety. We Do Not Deserve this blather stone! Nor do we deserve to be inflicted with this transgender rubbish. Wake up to yourselfes!
