Submitter Comments:

My husband & I lived in Cairns for many years & greatly love the city & surrounds. My husband has since died, so I am back where my children live. However, as a former Queenslander, I am horrified by the contents of this bill & find it hard to believe that a female minister would impose such horrible conditions on females who respect their gender & wish to protect it. Why put trans-gender males into women's prisons? Why have trans-gender males playing women's sports? Why have trans-gender males using women's toilets? This bill is dangerous to all women who were born as women & wish to stay that way. Please immediately remove this bill from the parliament & give decent respect to women. Thank you, Margaret Modra
