My submission is as follows – I agree with everything Rachael Wong has said in her statement strongly and am very concerned where all this madness is heading for the safety and privacy of women. I believe Shannon Fentiman should be removed, and someone who will genuinely protect and listen to women should be reinstated. Fentiman is following a social phase spread by the internet which is harmful to women and children. If this is allowed to continue many people will be hurt or murdered, and we do not want to wait for the inevitable to say, “Oh maybe this was not right, moral or safe.” 1. If they are serious, they can spend money and build separate spaces for these men identifying as women. 2. This will make it harder for police to track down offenders. 3. Women will be again invisible and be treated as they were in the 14<sup>th</sup> century as second-class citizens with no voice and unprotected from men. 5 Anyone (Fentiman) who does not look after the interests of women and follows fads which are dangerous and immoral does not deserve to hold any position of care. 6. All this done in the name of being inclusive is going way too far. 7. Women’s rights have been stripped, and children are at the mercy of madmen... stop.
