Submitter Comments:

If you still have a penis you are NOT a woman, until that penis is totally removed and you look like a female in every part of your body, until then you should NOT be allowed in any female, toilets, sports, dressing rooms etc. Especially if you still stand to pee do not go into any females toilets.. IMHO GOD only made 2 genders female and male. If you want to identify as a female good on you, but this does NOT give you any rights to female facilities if you still have male parts.
