I would like to express my concern regarding the proposals in this bill and have my disagreement with it recorded. Biological men are not women. They do not belong in places where vulnerable women are such as shelters, prisons etc. I understand that some males may have legitimate gender dysphoria and they need assistance but placing anyone who says they are a female in situations with potentially vulnerable women and girls is morally wrong. I trust that, should this Bill be passed, and any woman is hurt by one of these men, those who voted for it will be held personally accountable.
