

Births, Deaths and Marriages Registration Bill 2022

Submission No: 258
Submitted by: 
Publication: Making the submission public but withholding your name

Submitter Comments:

I support this bill because it will give human beings the dignity to be able to make their own choice about their own bodies, without the need to be forced to go through risky surgeries just to be recognised for their gender. its 2023, the science is indisputable that withholding trans and non binary people from freedom to be who they are, causes immense damage to their livelihood.
