

## Births, Deaths and Marriages Registration Bill 2022

**Submission No:** 264  
**Submitted by:** Anna Sri  
**Publication:** Making the submission and your name public

### Submitter Comments:

Being able to change the legal gender recorded on their birth certificates without requiring gender affirming surgeries (which is costly, time-consuming, and emotionally taxing as well as not available to everyone) would more easily allow transgender people the right of having their legal gender match their true gender identity.
