

## Births, Deaths and Marriages Registration Bill 2022

**Submission No:** 320  
**Submitted by:** Imogen Boyle  
**Publication:** Making the submission and your name public

### Submitter Comments:

Being able to have identity documents that reflect our affirmed identities is really important as an early step in transitioning. The alternative to having these documents reflect our identities can lead to distress and misgendering, which may lead to violence. We have a right to have our documents reflect who we are, and the law should reflect that.
