

Births, Deaths and Marriages Registration Bill 2022

Submission No: 326
Submitted by: Shanae Pas
Publication: Making the submission and your name public

Submitter Comments:

Parliament needs to make changes to policies that make it easier for trans people to be recognised. By easing the process of having their names and gender changed on their birth certificate. This process can be very daunting for them and cause a lot of distress, especially when they face hurdles or delays in making these changes.
