Subject: Submission in opposition of the passing of the Qld Sex Self ID Bill & Births Deaths & Marriages Registration Bill

Hi

I am a Female, Woman and Mother and I am extremely concerned about the fact that my Rights, ie, Women's Rights, have been eliminated in Australia due to 'sex' being replaced with 'gender identity' within council guidelines, sporting guidelines, government guides and Acts by Federal/State/Local Governments who signed up to the gender identity ideology, hence, States introducing sex Self Identification into legislation.

My rights, ie, Women's rights, have been taken away without any inclusive democratic public discussion both from women and parents.

I strongly oppose the passing of this Sex Self Identification Bill, ad the Births Death & Marriages Registration Bill that will legalise the falsification of birth Certificates in Queensland, enabling people to 'change sex' at will, and by this submission, I wish to regain Women's rights. The passing of this Bill will erase Women/Girls' existence and allow the ruining of children's lives through abusive acts.

Women's rights should be clearly defined in law based on biological scientific evidence. Sex should be protected for funding, services, and spaces that are provided for women based on their female biological sex. The word 'gender' needs to be replaced with the word 'sex' in the anti-discrimination acts, and that sex is not conflated with 'gender identity'. A statutory provision for declaring that sex is the principal protected characteristic.

Kind regards
