### Submitter Comments:

i feel the volunteers for state emergency services would benifit greatly of we recieved tax breaks for our service to our community. many of us work and have to take time from our paid employment to assist as volunteers. many of our workplaces do not pay us when we do this. compensation in the form of tax break would help those volunteers who give their time and put their bodies through rigorous challenges to help others.army reserve can do it fire department pays their volunteers for call outs. we are not asking to get paid for training but for the deployments that we attend.
