Submitter Comments:

I have volunteered for a NFP organisation that provides community transport. Because they transport people I need a Commercial Drivers License. I am Type 2 diabetic. My GP acknowledged that my diabetes is well controlled and all the pathology results are within normal limits. She informed me that the TMR legislation requires an Endocrinologist to sign-off the paperwork. I am on a waiting list for the appropriate clinic at the hospital. The waiting time is up to 90 days. I feel that this is a vast over-reach and is wasting the time of every one involved. Volunteering shouldn't be this difficult
