Subject: Feedback-Feedback Form-Preamble For The Queensland Constitution Proposal

I am firmly against the proposal to the addition of a preamble to the Queensland Constitution, and desire that you register my objection to the proposal.

This great State of ours has functioned quite well without a preamble to our constitution up to this point in time, and I firmly believe in the philosophy of "If it 'aint' broke don't fix it".

Without the existence of your "Issue 1" on the Feedback Form i.e. "Should the Queensland Constitution contain a preamble?", the remaining Issues no longer exist and require no feedback.

Sincerely

John J. Dixon
