Dear Sir,

Re: The Preservation & Enhancement of Individuals' Rights & Freedoms:
Should Queensland Adopt a Bill of Rights?

If Qld is to adopt a Bill of Rights then the right to self defence & the right of private ownership of firearms are the most important that we can have. Without the right to self defence & the right to own firearms suitable for that defence then every other right and freedom that we have is totally worthless.

The right to free speech & ownership of property mean nothing if we do not have under law the right to self defence.

Yours faithfully,

D.A. WALLACE
