14.  
S.A. WILSON

Dear Sir,

In regard to "The LEGAL CONSTITUTIONAL AND ADMINISTRATIVE Committee" or "The Preservation and ENHANCEMENT of Individuals Rights and Freedoms" would you please accept my submission.

1/ Any sound and law abiding adult should have the right to own or possess any type of firearm which is not capable of fully automatic function, without undue interference from the Government.

2/ Person fulfilling obligations in submission 1/ should not have to show "genuine reason" to own or possess any legal firearm, but authorities should be able to show "genuine reason" why an individual cannot own or possess that firearm.

3/ Persons fulfilling the obligations in submission 1/ should have the right to own or possess a firearm for the purpose of defence of self and family from any form of threat which would be considered a danger to their well being.

4/ Persons fulfilling the obligations in submission 1/ should have the right to acquire and dispose of firearms at their discretion, without undue interference from the Government.

5/ Persons possessing firearms should take responsibility for the storage and safety of those firearms and be free from unnecessary interference by Government in their own homes.

The right of honest people to possess firearms is an issue myself and many Greenlanders feel very strongly about.

Hoping you took favourably on this submission.

Thank You Very Much.
